

Overview of the identification lengths of the Cablelock series **AS-Mini** type AS2-M and AS2-L

The identification length corresponds to the length of the wire cable including the pressed on limiter ferrules in the disassembled state of the Cablelock retaining system (Type AS2-M) or to the centre of the diameter of the bracket in disassembled state of the Cablelock retaining system (Type AS2-L).

Type AS2-M

Type AS2-L

Table of the identification lengths of AS-Mini

AS2-M

Ident. No.	Ident.length
CL-AS-2MA	190 mm
CL-AS-2MB	205 mm
CL-AS-2MC	225 mm

AS2-L

Ident. No.	Ident.length
CL-AS-2ML	180 mm

Dimensional tolerance for identification lengths -10mm +20mm.
